### Valedictory.

With this issue of the paper my connection with THE NEWS AND HERALD terminates.

When I assumed the duties of an editor twelve months ago I determined that the work which I would contribute to the paper should be performed at night; that my duties as an editor should not interfere with my work in the practice of my profession, to which I allotted the daytime.

I have learned in the course of the vear that it is not possible to serve two masters; that in the conflicting exactions of the two, the just demands of both are neglected, and in founded. A soldier himself, Col. Thomas speaks of the soldiers of South Carolina with a fervid and fairly classic eloquence. "Honor, therefore, to the soldiery," he says, "officers and men alike, who in the last war of the State did their duty. of the Treasury, was a typical American. His career affords another inits own destiny. He began life as an errand boy in a rrinting office, and rose through all the minor gradation to the position of editor-in-chief. He became also a banker, and it was as one of the most successful financiers in the country that he was invited by President Cleveland to accept the portfolio of the Treasury.

He struggled many years with poverty, but his industry, his frugality and his talents triumphed at last, and the errand boy of the Albany Argus became an honored member of a Cabinet of "the greatest government that the world has ever seen.

He illustrated the immense possibilities of American citizenship. His death, which occurred but recently, brought messages of condolence from Kings and Queens in every part of the eastern hemisphere.
